Career Objective

Motivated Full Stack Developer seeking a challenging role to utilize my expertise in MERN stack, Typescript and modern web technologies. Committed to building scalable solutions, continuous learning and contributing effectively to team success.

Professional Training

Front-End Web Development: Successfully completed professional training from "Programming Hero" focusing on React, Typescript, Node.js, Mongoose and MongoDB.

Responsive Web Design: Completed a 6-month comprehensive course from "Creative IT Institute" covering HTML, CSS, JavaScript, and dynamic web architectures.

Experience

Front-end Developer (Intern): Worked at "Holo Technologies, Dhaka" from January 2023 to July 2023. Managed team-based projects including Pharmacy POS, ERP and Office Management Dashboards, focusing on API integration and collaboration.

Education

Diploma in Electrical Engineering: Completed in December 2023 from Shyamoli Ideal Polytechnic Institute, Chittagong.

Higher Secondary Certificate (HSC): Completed in June 2019 from Bangladesh Navy School & College, Chittagong.

Technical Skills

Front-end Development: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js (Familiar), Tailwind CSS, Bootstrap, Responsive Web Design, SPA Development, TanStack Query (React Query), Axios, Context API AOS Animation.

Back-end Development: Node.js, Express.js, RESTful API Design, Mongoose ODM, Authentication & Authorization, Role-Based Access Control (RBAC).

Database Management: MongoDB (NoSQL), MySQL(SQL/Relational), Database Design & Modeling.

Tools & Technologies : VS Code, Git & GitHub (Version Control), Postman, Swagger, Firebase, Slack, Figma, Netlify & Vercel (Deployment), JSON.

Project

OfficeOS ERP - Full-Stack Office Management System: A centralized procurement and administration dashboard engineered to monitor internal request pipelines and streamline business expense control.

- **Core Workflows:** Implemented an Admin-Manager-Employee hierarchy with dynamic permissions, utilizing TanStack Query and Axios for efficient data fetching.
- **Security & Auth:** Integrated strict role-based access control (RBAC) and JWT authentication to protect administrative sub-routes and guarantee data integrity.
- **Data Management & Operations:** Developed full CRUD operations using Mongoose ODM, integrated Multer for file/invoice uploads, and utilized Context API for dashboard analytics.

Demo Accounts for HR/Testing:

Admin: sohan@gmail.com (Password: Sohan@1234*#), **Manager:** sakib@gmail.com (Password: Sakib@1234*#), **Employee:** alif@gmail.com (Password: Alif@1234*#)

Tech Used: React.js, Node.js, Express.js, MongoDB, Mongoose, TypeScript, React Router, TanStack Query, Axios, JWT, Multer, REST API.

Single Page E-Commerce Application: A high-performance Single Page Application (SPA) designed for multi-category retail shopping with instant state updates.

- **Features:** Built secure user authentication flows, dynamic client-side filtering, and a persistent shopping cart pipeline synced with browser Local Storage.
- **UX/UI Optimization:** Enhanced visual delivery using precise scroll animations (AOS) and fluid layouts optimized for all device breakpoints.

Tech Used: React.js, Tailwind CSS, React Router, JavaScript, JSON, AOS Animation.
